

Surgical Garments for Better Outcomes

March 26

TO ENSURE SAFETY & THE BEST SURGICAL OUTCOMES SURGICAL COMPRESSION GARMENTS MUST BE:

- ☐ Class 2 Flat knit
- ☐ Waist to toe (open toe) measured with a **more relaxed fit on foot and ankle**
- ☐ Fitted with Bathroom ease - zippers (or open crotch if zippers not available)
- ☐ Organised 4 months before for fit & to factor in production
- ☐ Worn daily 4-6 weeks before to ensure comfort, soften the garment to lessen the risk of blisters, soften the adipose tissue and any fibrosis ready for surgery

- Juzo garment- Jenny in Alexandria 02 9319 1955
- Czsalus garments are **not** appropriate for surgical compression

Investing in your surgical outcome

Custom made compression is the best option to fit your body perfectly, provide the correct medical compression (avoids a tourniquet effect) and can be made with bathroom ease. Custom garments will cost approximately \$1200. This is a vital investment in your surgical journey. We want you to be as comfortable as possible, achieve the best possible results and above all reduce the risk of post operative complications. This can only be achieved with custom garments.

Important: Without appropriate compression your surgery may be postponed.
